

A Proven Solution

CareerCruising

A Proven Solution

PowerSchool is the leading and fastest growing student information system (SIS) available today, supporting more than 8.5 million students in all 50 states and over 65 foreign countries. Last year, more schools and districts selected PowerSchool than any other SIS product on the market. Today, PowerSchool supports a wide range of implementations – including schools as small as 25 students, districts as large as 80,000 students and statewide deployments.

Impact to Student Achievement

The deep functions of PowerSchool allow today's educators to make real-time decisions about each student, while creating a collaborative environment for parents, teachers and students to work together to prepare students for the future. Access to real-time information allows student performance to be addressed in a timely manner.

Easy to Learn, Easy to Use

By leveraging the latest web technologies and evolving web design standards, PowerSchool presents users with a clean interface that is easy to learn, and easy to use. With over a decade of experience as a completely web-based system, PowerSchool stands alone as the deepest and most flexible SIS available to meet the needs of K-12 districts. Through SIF® Compliance, an open platform, and the ability to share enhancements with other users, PowerSchool allows each customer to easily tailor the best solution for their needs.

Essential Guidance Tools

Career Cruising provides a web based suite of guidance tools for students and administrators. Features include:

- Online assessments
- Detailed career research and profiles
- Comprehensive education plan development
- Post secondary program requirements
- Detailed student course plans
- Employment opportunities and resume building

Inspiration. Engagement. Action. Achievement.

Career Cruising has a friendly user interface that encourages exploration and engages students. Each school can configure grade level action items for students. These can be tracked at a school or district level. The Course Planner aligns a student's post secondary goals with a local course plan and will include recommendations to ensure student achievement.

Course Planner

Career Cruising's Course Planner module has been integrated directly with PowerSchool. Course Planner empowers students to create education plans that coordinate all the information they need to select high school courses, consider various careers, and make decisions about post-secondary options. Administrators have access to detailed reporting, course recommendations, CTE tracking reports and special advisor course alerts.

About Pearson

As the industry leader in SIS and performance solutions, Pearson offers schools and districts access to deep expertise and an unparalleled selection of technologies that address the challenges of achievement, reporting, growth and scalability. Our student information systems enable schools and districts to leverage technology to ease reporting burdens, open up lines of communication and simplify internal processes, such as scheduling and grading.

We believe that providing today's schools and districts with a choice of flexible, interoperable and customizable technology solutions is critical to establishing the infrastructure needed to power performance across all stakeholder groups, be it schools, districts, administrators, teachers or students.

About Career Cruising

Established in 1997, Career Cruising is currently used by over 7 million students in 15,000 institutions across North America, including schools, employment agencies, libraries, colleges and universities.

Through years of experience and customer feedback, Career Cruising has assembled the most powerful guidance tool available for both students and administrators. Connecting historical, current and future plans is an essential part of student success.
